ABOUT ME

I have been working as a Software Developer since 2016, working with different languages and frameworks, such as JavaScript, TypeScript, Laravel, and Next.js. I graduated from Universidad Nacional Experimental Politécnica de la Fuerza Armada with a degree in System Engineering, where I learned about programming, network technology, and system analysis. I am committed to delivering quality work and open to new challenges. I have strategic soft skills that allow me to take responsibility for decision-making, leadership, and teamwork.
