Express.js	Postgresql	MongoDB	Mysql	

EXPERIENCES

Shokworks. inc Dallas City, United States
Frontend Developer Dic 2019 – Jul 2023

- I developed and maintained frontend interfaces, focusing on web layout, resolving style and functionality issues, and integrating APIs and endpoints.
- I implemented UI/UX design requirements for various projects, primarily using technologies such as React.js and Redux.

SB Medical Miami, United States
Php Developer Jan 2019 – Jun 2019

- I developed new content and modules to meet client specifications.
- I maintained 13 e-commerce stores built with Magento 2, ensuring adherence to the development standards in place at that time. This included, among other tasks, updating store templates to implement a responsive design.

Jida Desarrollos C.A. Caracas, Venezuela
Php Developer May 2018 – Dic 2018

- I maintained various web applications, ensuring compliance with client requirements while using a corporate framework based on PHP.
- I developed multiple minimalist websites in WordPress, providing effective solutions for clients in need of a web portal.

Movilnet Caracas, Venezuela
Web Developer Apr 2017 – May 2018

- I gathered and analyzed requirements to design information systems aimed at streamlining and automating the work processes of functional users in the Vice Presidency of Commercial Operations.
- I maintained several applications used in the Virtual Channels Management, ensuring their functionality was updated and new requirements were met.

Alcaldía del Municipio Libertador Caracas, Venezuela
Web Developer Feb 2016 – Mar 2017

- I maintained websites and web applications for the city hall, using PHP, HTML5, and JavaScript within an MVC architecture. This included implementing new functional user requirements and updating existing features.
- I developed new web applications based on the requirements of various city hall departments, aimed at streamlining and automating their work processes.
